

Friday 23rd June

Dear Parents/ Carers

W/C 19th June

What a fabulous week we have had! The children have been so excited about the pirate party and it certainly met all expectations. We had such fun creating menus and preparing some of the foods- a great team effort. Thank you so much for all your contributions. We wouldn't be able to do things like this without your support. In maths we have exploring the part whole model as many of you had a chance to explore on Wednesday morning. It is a while since we explored the model and we realise that we need to recap a little more.

W/C 26th June

Next week, continuing with our 'under the sea' topic, we will begin looking at mermaids as well as different underwater creatures (as requested by the children). We will be reading 'The Singing Mermaid' and the children will be using their writing skills to decide what could happen next. We will continue with our part whole model investigation, focusing again on addition and subtraction. In groups, they will also be trying to create their own songs, based on the book, using instruments to accompany. We will also beginning our Sports Day practice.

Learning Log

Please can you get a little more creative with this week's learning log? With your child can you create a mermaid or an underwater creature?

Eureka Reminder

Please can we remind you to pay for the school trip on **Parent Pay**. Unfortunately, if not enough parent's pay, the trip will be unable to run.

Have a lovely weekend.

The Reception Team
