

Friday 11th March 2022

Dear families,

We have been closely monitoring the COVID-19 infection rates within the academy and alongside this, working to all recent Government guidance. In response to this, we have made the decision to reinstate certain elements and routines within the school day.

From Monday 14th of March the one way system will be removed, so that there is access to the disabled bay in the car park (for those families who are blue badge holders only). Please be aware that the car park is only to be used in this circumstance. This is the system which was established pre COVID-19 and used consistently. Doing this, will also allow staff to be within the classrooms supporting pupils at an earlier time in the school day.

I appreciate areas of the entrance and exit route may feel crowded, which is why we would encourage you to take your time when exiting the academy. Please exit the academy grounds by walking back up the path in which you normally enter.

Whole school assemblies will also be reinstated. Please be assured that we will respond appropriately if there are any increases in cases within the academy or amendments to Government guidance.

Many thanks for your continued support,

Mrs L Hadfield
Principal
