Great Science Share

Dear families,

On Tuesday, 13th June it will be the national Great Science Share for schools. To celebrate our love of science, we would like to welcome parents/carers after school on **Tuesday 13th June** to complete a range of activities with your child/children.

During this time, the children will be able to question, explore and investigate. The session will take place on the field from **3.25pm - 4.00pm**. Please collect your child/children as usual and wait on the playground until you are led down onto the field by a member of staff.

If one of the activities is busy then we kindly ask that you would choose another activity to complete and return at a quieter point.

We look forward to seeing you on Tuesday 13th June.

Thank you for your continued support,

Mrs Jagger

Science Lead
